

First Announcement

XAFS16

Satellite Meeting Application of XAFS to the Study of magnetic Materials

Satellite Meeting
Stuttgart, Germany, at MPI-IS
30 August – 2 September 2015

The **upcoming** satellite workshop is intended to report the status and new trends in magnetism related research, based on magnetic circular and linear polarized x-ray phenomena (XMCD and XMLD).

Tentative list of topics:

- XMCD/XMLD methodical developments
- Magnetic materials, thin films, and devices
- XRMR, RIXS ...
- Molecular magnetism
- Basic magnetic phenomena: bulk and interfaces
- Time resolved methods
- Magnetic x-ray microscopy and x-ray imaging
-

Local Organizers:

- Eberhard Goering (MPI-IS)
- Gisela Schütz (MPI-IS)
- Amelie Juhin (IMPMC)
- Philippe Ohresser (SOLEIL)

In case you have questions and/or suggestions:
goering(at)is.mpg.de or sekr.schuetz(at)is.mpg.de
Please use "XAFS16" as an email subject
